

ZBTLINK Z8102AX-T 5G SA/NSA AX3000 WIFI 6 DUAL SIM CARD WIRELESS CPE

5G LTE Router

- **Fast Wi-Fi 6 Router:** Wiflyer AX3000 WiFi 6 5G Router provides reliable networks for remote access and high speed internet in urban areas with up to 574Mbps (2.4GHz) + 2402Mbps (5.8GHz) Wi-Fi speeds. Supports MU-MIMO technology for simultaneous wireless network connections in different scenario.
- **5G Network & Dual-SIM:** Experience lightning-fast 5G speeds under both NSA and SA standards. Dual-SIM flexibility for selecting the stronger and faster connection. Compatible with 4G LTE and 3G networks. AT&T, T-Mobile certificated.
- **9 Antenna Router:** The traditional external antenna design is similar to the appearance of a typical router. The number of antennas can reach up to 9, 4*5G 5dBi cellular antenna, 2.4G 5dBi WiFi antenna*2, 5.8G dBi WiFi antenna*3.
- **Suitable for Networks:** This plug-and-play router WiFi is suitable for 5G NSA and SA modes. It is compatible with most cellular providers worldwide and will auto-configure when connected to AT&T, T-Mobile, and Verizon for more practicality. (NOTE: Supports T-mobile only If you use it in America, must fill in the APN)
- **More Space Flow & Capacity:** Dual frequency with a bandwidth of up to 3000Mbps, allowing you to enjoy UHD streaming videos and real-time online games without worry. Simultaneously providing more access capabilities for mobile terminals to meet the rich access needs of future smart homes.
